

fermacell Product Data Sheet

fermacell HD Joint Reinforcement Tape for the joint reinforcement of Powerpanel HD

Product

The **fermacell** HD Joint Reinforcement Tape is a one-sided, self-adhesive, non-slip polyester fabric with reinforced central strips. The self-adhesive coating is provided with a removable protective film.

Application

The **fermacell** HD Joint Reinforcement Tape is a necessary joint reinforcement component of the fermacell Powerpanel HD external wall system.

Properties

- High-strength material with reinforced central strips (40 mm wide)
- Fast installation, as the tape is self-adhesive on one side
- Designed to use with fermacell Powerpanel HD external wall system

Processing

The vertical joints of **fermacell** Powerpanel HD are dry butted (joint width 1 mm). The horizontal joints in the element joint area, which are located above or below load-bearing wall panels and which are not formed as expansion joints, and in the area of non-load-bearing wall panels are closely butted.

After removing the protective film from the **fermacell** HD Joint Reinforcement Tape, adhere the tape over the joints. In case of closely butted joints around inner and outer corners or window frames, the HD Joint Reinforcement Tape is applied across the corners.

The HD Joint Reinforcement Tape is completely coated with the **fermacell** HD Joint Adhesive over its entire width. All fixings which are not covered by the tape must be coated with at least one layer of Adhesive HD.

Please also observe our detailed processing instructions in our brochures and videos at www.fermacell.com

fermacell HD Joint Reinforcement Tape

for the joint reinforcement of Powerpanel HD

Material properties	
Width	120 mm
Consumption	approx. 2.0 rm/m ²
Length / roll	50 m
Storage	Cool, dry and frost-free
Storage stability	12 months
Colour	White

Merchant data	
Item number	79050
EAN	40 0 7548 00300 1
Rolls / box	4 pcs
Weight / roll	approx. 570 g

The other components of the fermacell external wall system are:

- **fermacell** HD Joint Adhesive
- **fermacell** HD Reinforcement Mesh
- **fermacell** HD Light Mortar
- **fermacell** HD Bellcast Profile
- **fermacell** HD Expansion Profile
